

# Lindab ICS product range update

Short guide on changes in ICS product range effective 1 October 2018

In 2018 the ICS product range of Lindab d.o.o., Godovič, Slovenia underwent a thorough renovation. Our new offer includes products, which in regard to technical characteristics, quality:price ratio and delivery time optimally meet the demands of local markets.

This document contains a comprehensive overview of products, which from the technical point of view equally or better replace the existing offer, in some cases minor deviations in technical characteristics are possible, for example, regarding product dimensions or method of installation.

For simplified product selection we recommend our user friendly selection software: <https://www.lindqst.com/>
